## Information for Walk-in Patients

You do not need an appointment to access this service. On arrival at the Centre you will be asked to fill out a form and you will then be added to the waiting list. You will be triaged and then directed to the appropriate clinician for treatment.

### **Hastings GP led Health Centre Prescribing Policy:**

If you are visiting or recently moved to the area and have forgotten or run out of your regular medication we may contact your own GP to arrange a supply to see you through your stay here or until registered with a local Practice. Please ensure you bring proof with you whether it be a repeat slip or the actual medication.

We will not issue repeat prescriptions such as diazepam, sleeping tablets and strong painkillers without the consent of your registered GP.

We do not provide a service for replacement of lost or stolen prescriptions or medication. If you are registered with a local GP surgery, please contact them with regards to repeats or replacement prescriptions.

**Please contact the Centre for further information on the services we provide.**
